

8 Gigantic Goliath Facts

FACT #1: Goliath came from Gath of the Philistines. He had one brother and 3 sons, *all of which were giants*.

FACT #2: Goliath was 6 Cubits and a span tall or **9'9" - 11'3"** depending on which cubit is used.

FACT #3: Goliath weighed approximately **600-800 pounds**.

FACT #4: Goliath was a career warrior. His armor consisted of 125 lbs of body armor, a brass helmet, a pair of brass shin guards.

FACT #5: His weapons were a Javelin (long distance) Spear (mid distance) and a Sword (close up in fighting). Plus he had a shield and an extra man to carry it.

FACT #6: Twice a day for 6 weeks, Goliath would mock Israel's God by his

gods. It was believed in ancient pagan cultures that whoever won the god mocking contest was sure to win the battle.

FACT #7: Critics of the biblical account state Goliath was physically weak from a pituitary gland issue. Not so. His spear alone weighed 32-40 lbs. with an estimated height of 12ft. We maintain that Goliath was a healthy full on genetic giant human.

FACT #8: Pride was Goliath's undoing. His massive strength was no match for God who only needed a trusting teenage shepard boy named David whose sling propelled a small rock that met its mark and sank into the giant's massive forehead.
