

# 10 Reasons Why the Book of Enoch Should Stay OUT of the Bible

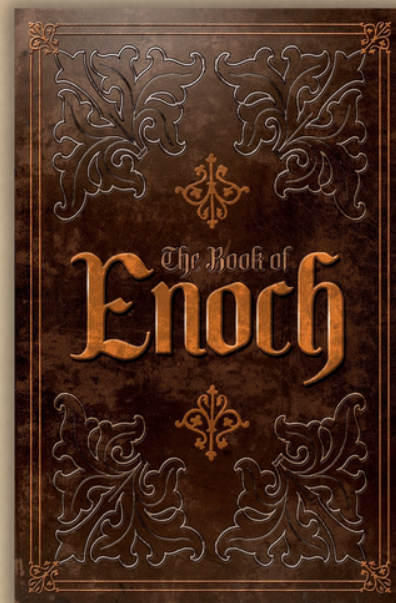

With the proliferation of information due to the Internet, there are many obscure theories and books that have been under the radar for the masses, until recently. The acknowledgement of the existence of the Book of Enoch is one such example.

No one and I mean no one ever discussed the book of Enoch, the “lost book of the Bible”, until now. With platforms like YouTube and Tiktok, many obscure ideas are coming to people’s attention for the first time - including this book which was excommunicated - removed from the Holy Bible.

What surprises me the most is the public’s response. The cult-like following, overwhelming acceptance and especially the strong defense of this book.

For the first 18 months we were on the platform TikTok, during our LIVES and comments sections people would bang the Book of Enoch drum to such a degree I decided to see what this book contained. After receiving my copy, I slowly read every page with pen and paper in hand.

This report is taken from the detailed notes taken from my first impression and read of this ancient book of alleged truth. Below are the 10 reasons why the Book of Enoch should stay out of the Bible.

## CHAP. XXXVII.<sup>1</sup> [SECT. VI.<sup>2</sup>]

1. The vision which he saw, the second vision of wisdom, which Enoch saw, the son of Jared, the son of Malaleel, the son of Canan, the son of Enos, the son of Seth, the son of Adam. This is the commencement of the word of wisdom, which I received to declare and tell to those who dwell upon earth. Hear from the beginning, and understand to the end, the holy things which I utter in the presence of the Lord of spirits. Those who were before *us* thought it good to speak;

2. And let not us, who come after, obstruct the beginning of wisdom. Until the present period never has there been given before the Lord of spirits that which I have received, wisdom according to the capacity of my intellect,<sup>3</sup> and according to the pleasure of the Lord of spirits; that which I have received from him,<sup>4</sup> a portion of life eternal.

3. And I obtained three parables, which I declared to the inhabitants of the world.

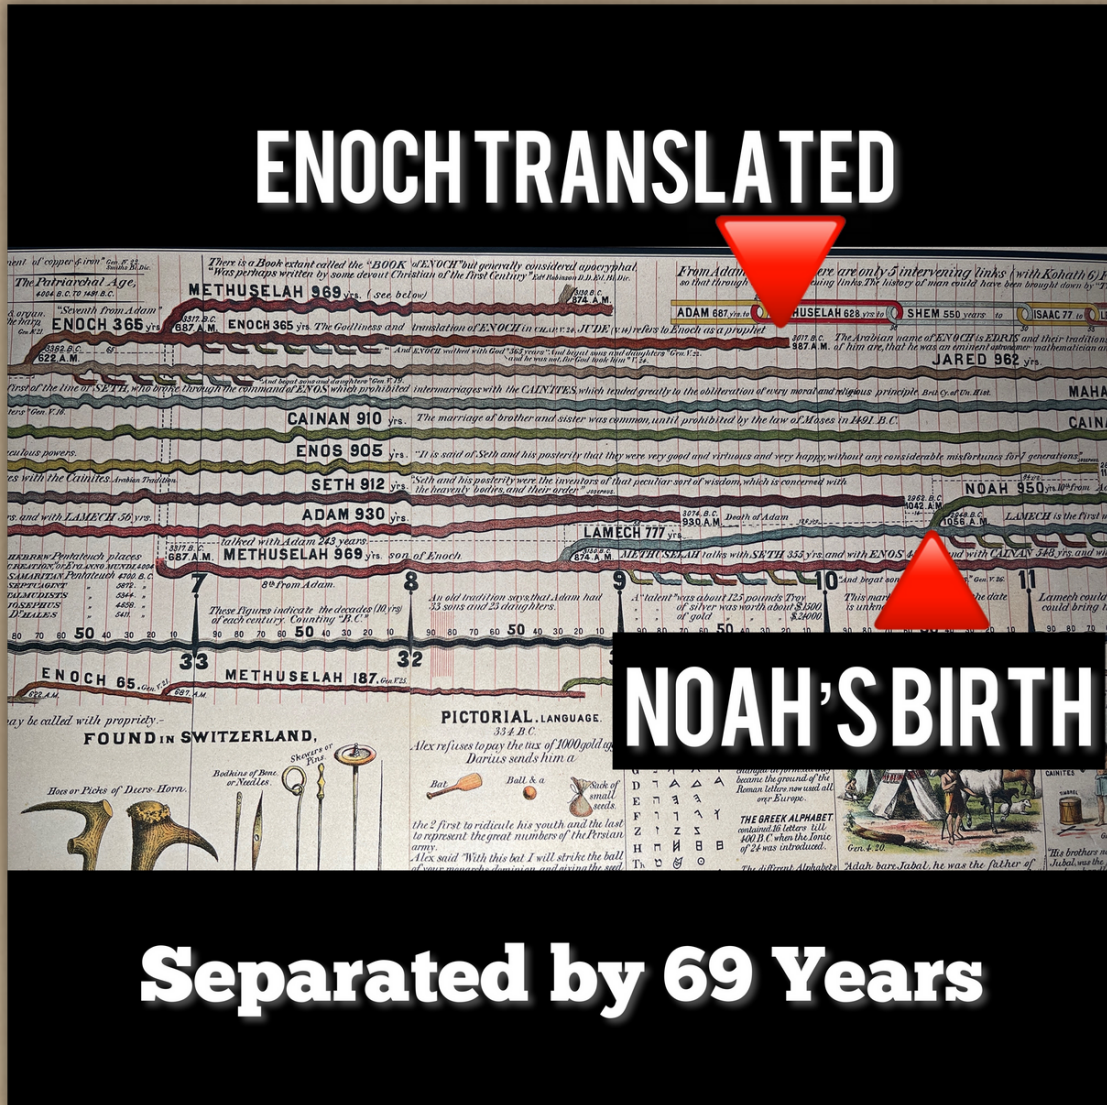

**#1 Questionable origins of this book** - Although the Book of Enoch claims to be legitimate, most scholars of the Christian and Jewish faith regard this book as pseudepigraphic, which means that someone, possibly a Jewish writer(s) from 200 B.C. - 200 A.D. took what was already written on a subject or historical event and added additional information.

It would be like me adding to my grandfather’s history with events that may or may not have happened and then me stating it was my grandfather who wrote these accounts, and then insisting they be added to his autobiography years later.

**#2 Boring and empty** - The book is just plain boring, vapid, banal. It is repetitive in its themes and as a result, it’s just plain empty. Not a good read nor is it fascinating. You don’t hear that “ring of truth”.

**#3 Confusing** - The book is hollow yet it is constantly attempting to sound Biblical and really has no depth. Those who are convinced it is authentic, try and read deeper into it as if it is inspired and then try and pull from it greater meaning when in fact its really not there.

**#4 Enoch is Not the Author** - The Book of Enoch was said to be written by Enoch who was born before the flood in 3382 B.C. and translated (went to heaven) in 3017 B.C. He was 365 years old when God took him directly to heaven without seeing death. And yet, as you read the book of Enoch you can see that the writer's perspective was not from a time nearly 700 years before the World-Wide Flood of Noah in 2,348 B.C. but after it. When you read it, keep this in mind and ask that question along the way. Did Enoch write this? Is this the perspective from someone who lived 5,000 years ago or 2,200 years ago? And...if he did not write this book then who did? And if written by a later author, why call it the Book of Enoch, unless the author was writing "Biblical" fiction. I agree with others that this is Biblical FRAUD!

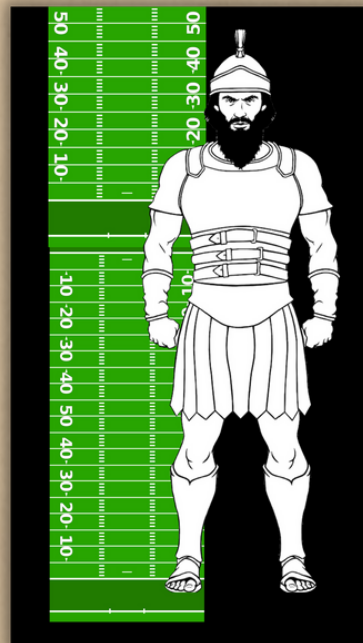

**#5 Timeline is off** - The Book of Enoch states that Enoch and Noah lived contemporaneously. But when you dig into the timeline of each person's birth and life, you discover they did not live at the same time. Enoch was translated in 3017 B.C. and Noah was not born until 2948 B.C. This means they missed each other by 69 years and yet the writer of Enoch gives an account of speaking with Noah's father Lamech the day of Noah's birth. Oops!

**#6 Good Angels Mated with Humans** - That's correct, the book claims 200 good, unfallen, righteous angels in heaven decided to cruise to Earth to mate with women. First off, if angels could or did have relations with humans, why would it be the 200 good angels and not the bad (fallen) angels who had been banished to this Earth? Why after the war in heaven with victory won, and the expulsion of the bad angels would it be the unfallen angels who decide it was a good idea to mate with the daughters of men? It makes no sense at all.

**#7 Giants were born** - Continuing with the assumption put forth by the book of Enoch that good angels mated with the women of earth...The offspring of this alleged unholy union produced children that grew to 300 cubits in height? That's 450 ft. tall! Were the angel parents that tall? If not then how could a normal sized human and an angel of similar size birth a child that would grow to an impossible height? And if the angel parent were as tall as a football field, how could they physically mate with a normal sized human spouse? This whole subject is completely unfathomable, impossible to imagine and unprecedented. Not to mention bizarre.

**#8 Weird Birth of Noah Episode** - The day Noah was born he was described as a baby with rose colored skin, long white hair and beautiful eyes. When he opened his infant eyes for the first time, they beamed rays like the sun that lit up the room with light. Within minutes of his birth, Noah was handed to his father Lamech and Noah spoke to the Lord. Lamech was so afraid he ran to his father Methuselah and said to him, "this is unlike any normal child. He is not human - more like the angels of heaven's offspring." Do you begin to see how quirky this is?

**#9 Angel Prayers** - In the Book of Enoch, angels are praying on behalf of the sons of men (sons of men = us, fallen humans). Since when have we ever seen in the Bible an example of angels interceding by prayer on our behalf? The answer is Never. So why let a single apocryphal book, that has been purposely left out of almost all Bibles, introduce a new doctrine?

## #10 Miscellaneous Questionable Statements

**Book of Enoch:** At least 20 angels are mentioned by name.

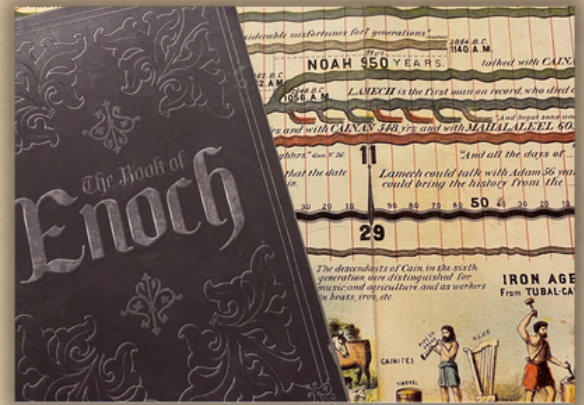

**Bible:** Names 3 angels - Michael, Lucifer and Gabrielle.

**Book of Enoch:** Eve was deceived by an angel named Gadrel.

**Bible:** Eve was deceived by Satan.

**Book of Enoch:** States that angels would build the ark.

**Bible:** Noah built the ark under God's direction.

**\*Bonus Reason\*** - In the Book of Enoch, it is the only time in any piece of literature that Enoch's wife's name is revealed. It says it was...Edna.

**Conclusion** - My personal belief is that the Book of Enoch was not written by Enoch but by other(s) a couple thousand years after Enoch's removal from the Earth to Heaven. Should my conclusion be true, then this book is at best an uninspired book of little to no historical importance. However, even that is overshadowed by the many non-biblical concepts presented as true. I would not recommend this book nor would I take the words seriously. There are 66 books tested and accepted by the majority of Christianity. Stay there and you reduce your chances of being fooled by the odd false doctrines of the Book of Enoch.

**APES, ALIENS OR ADAM?**  
EXPLORING THE ORIGINS OF MAN
